My kids love itBy OlumideMy kids love this book0 of 0 people found the following review helpful. Five StarsBy Faith Van BuskirkWonderful book for children learning about the world.

Jam packed with the latest data, bright, bold images, large maps, a brand-new design, and lively information about the worlds land, people, and animals, the third edition Beginners World Atlas will be the most up-to-date world reference for kids ages 58. True to National Geographics reputation and legacy, weve created this atlas with the same care and attention to detail as our renowned adult atlases. No one does maps or atlases with as much panache and knowledge as

National Geographic, said the Washington Post. With completely up-to-date facts-at-a-glance, a glossary, pronunciation guide, and comprehensive index, this completely revised atlas takes young readers on a high-energy tour of the world and will be a must-have in every home and school. Vibrant color, fresh design, amazing photography, and new icons will help kids quickly identify information related to land, plants, animals, languages and culture, and all aspects of the physical and political world. Parents and teachers will appreciate the front matter with information for children about maps and how to use the atlas.

About the Author NATIONAL GEOGRAPHIC is one of the worlds leading nonfiction publishers, proudly supporting the work of scientists, explorers, photographers, and authors, as well as publishing a diverse list of books that celebrate the world and all that is in it. National Geographic Books creates and distributes print and digital works that inspire, entertain, teach, and give readers access to a world of discovery and possibility on a wide range of nonfiction subjects from animals to travel, cartography to history, fun facts to moving stories. A portion of all National Geographic proceeds is used to fund exploration, conservation, and education through ongoing contributions to the work of the National Geographic Society.
