National Geographic Maps - Reference : National Parks of the United States [Tubed] (National Geographic Reference Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised National Parks of the United States [Tubed] (National Geographic Reference Map):

3 of 3 people found the following review helpful. Great for Hikers/Travelers, but take care with it By D. Bourland I knew what I was getting, so I can't knock the product for being "thin"...but this is currently installed in my 5th wheel RV. I like to travel and hike, so I wanted a map to keep track of all my destinations. This is perfect for that, but I worry it could fall apart after a few years on the road, especially if anything bumps or hits it. I still recommend, but recommend being careful. 0 of 0 people found the following review helpful. I would like to have had brighter By Joseph J. Paul I would like to have had brighter, more contrasting colors to improve the distinctions of the fine detail. Overall, the map is bland and the font could be larger. 2 of 2 people found the following review helpful. Great Map By James E Warner Great map. Very detailed and very large. Will have loads of fun tracking all the parks we visit.

National Geographic's wall map of National Parks of the United States highlights the nearly 400 magnificent parks across America. The country is represented in subtle earth-tones with shaded mountain relief and intricately drawn river systems. Photos capture some of the diverse landscapes preserved and protected by the national park system. Separate inset maps provide detail and descriptions of seven of the parks: Yellowstone, Yosemite, Acadia, Grand Canyon, Great Smoky Mountains, Everglades, and Zion. Parks located in U.S. territories are included on an inset world map. Includes insets of the Yellowstone, Yosemite, Acadia, Grand Canyon, Great Smoky Mountains, Everglades, and Zion National Parks, an inset world map showing outlying U.S. National Parks, a list of parks near metropolitan areas. Popular Places Included on the Map include Yellowstone, Yosemite, Denali, Joshua Tree, Acadia, Grand Canyon, Great Smoky Mountains, Hawai'i Volcanoes, Everglades, Zion, Mount Rushmore, Great Sand Dune,

and Rocky Mountain national parks. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:5,200,000 Sheet Size = 42" x 30"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
