**Michael Bright : Nature's Predators: Snakes, Birds of Prey, Crocodilians, Sharks--Secrets and Skills of Successful Hunters in the Wild (Illustrated Wildlife Encyclopedia)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Nature's Predators: Snakes, Birds of Prey, Crocodilians, Sharks--Secrets and Skills of Successful Hunters in the Wild (Illustrated Wildlife Encyclopedia):

0 of 0 people found the following review helpful. ReferenceBy JulieI purchased this book I got this for my 7-year old who was doing a research project at school on eagles. He loves the pictures that explain the differnt parts of an eagle

as well as other birds of prey. 0 of 0 people found the following review helpful. My Niece, A Teacher, Really Likes It! By C. Fox I send my oldest niece, a teacher in Florida, books based on a theme they have each year. This book follows their current theme, learning about animals, predators and prey. She really likes this book.

Here in one volume, the reader can follow critical moments in a predator's life, including their specialist skills, hunting tactics, family lives, territories, and prey.

About the Author Michael Bright works for the BBC Natural History Unit in Bristol. He has written and acted as a consultant on many wildlife titles for children and adults. Robin Kerrod is an established author of children's information books and former winner of the COPUS science book prize. He writes widely on science, technology and the natural world. Barbara Taylor studied environmental sciences at Southampton University before becoming a science editor and writer at London's Natural History Museum. She is now a full time writer specialising in science and natural history books for children.
