Nevada Road Atlas By Henry J Belk III This book along with my GPS and other books on the ghost towns and history is exactly what I needed to get the most out of the areas where I live and to learn what took place there in the early 1900's. I drive a Jeep Wrangler and want to see and learn everything I can about the areas in Southern Nevada, so with this I can map out my route and plug the info into the GPS and away we go. Every road is precise and up to date and very informative. Even if I was to get lost it would be an adventure, and I wouldn't stay lost for long. I highly recommend this series of atlas for anyone who wants to get out and do some exploring of their own. 6 of 6 people found the following review helpful. Nevada Discovered By Lynn Bernhard This atlas of roads and geographic features in the Silver State is easy to use, complete, and satisfies my interests as a weekend back roads enthusiast. From what I have experienced so far, and from personal knowledge of some obscure parts of the state, it is reliable and thorough. Compared to the other popular atlases in this format and size, it rates EXCELLENT. Easy to read, easy to use when orienting in the back country. 0 of 0 people found the following review helpful. A great atlas for Nevada By Austin A very useful highly detailed map atlas for Nevada at a reasonable price. If you live or travel in Nevada it can be most helpful, especially in rural areas.

Nevada's favorite state atlas, the Nevada Road and Recreation Atlas, has been completely updated and revised for late 2010. Since its release, nearly 65,000 copies of this popular atlas have been purchased, making it one of the most successful map products in Nevada's history. The atlas features award-winning Landscape Maps, which reveal landforms with amazing realism and detail. The complete Recreation Guide lists a myriad of outdoor activities arranged by category and the accompanying Recreation Maps show hunting units and ten types of public lands. Map Scale = 1:280,000 1:850,000 Sheet Size = 11" x 16"
