I've seen Matt's progression from a Youtuber with practical career advice to a published author who is one of the best when it comes to career advice. After reading his first chapter I knew this book would benefit me and my friends. So I purchased the book (and even got it signed by Matt as well!!) and read through it fairly quickly. My favorite chapters would be 3 and 4 because Matt shows us how to optimize our LinkedIn profile and how to land your dream job using the 3-2-1- tier method. If you're in Highschool, College, Graduating from College, or even a College Drop Out "New Grad Job Hacks" offers great knowledge and practical tips that will help you in landing your dream job. Amidst my prolonged period of hyperventilating as an unemployed underqualified millennial, Matthew Trans's insider hack-book brought me great solace and relief. Every word is made to good use (Trans's style is perfectly suited to one like me with a fleeting attention span) as he clearly demonstrates. He keeps it real, concise, laugh-out-loud hilarious, and sheds light on every aspect of the job hunt. Anyone can read this as it applies to all. Not to mention I sought his help via social media regarding a question about what to expect in a particular job interview, and I was received with a response and insider info THAT SAME DAY. Tran is down-to-earth, knowledgeable, and personable, I would recommend this book to anyone. And yes, I've been hired as of today!)

Matt, elaborated on all the basics, and provided tips on finding the right career, degree and even gives an idea on how to find what you are really looking for. Very helpful, really encouraged me to think outside the box. Thanks Matt!!
