Angela K. Durden : Nine Stupid Things People Do To Mess Up Their Resume before purchasing it in order to gage whether or not it would be worth my time, and all praised Nine Stupid Things People Do To Mess Up Their Resume:

3 of 3 people found the following review helpful. Career Management Guide, and resume help tooBy Phillip AnglinAfter quickly reading the 9 stupid things that people do to mess up their resumes, this book seemed like a total waste. The 9 stupid things are pretty common and obvious. The real value to this book comes in the second half. The

career management section of this book is great. In preparing to build a quality resume, this section helps you identify many facts about yourself so that when you are ready to put it together, you can easily do it. The book is more like a workbook, and the author encourages you to write in it. Since this book is so thorough, it should be taken with you to interviews so you can review before the interview, and also it can be used to help you fill out a job application. One word of warning: if you are looking for a book that provides many resume samples, then this book is not a good choice. Only one sample is provided. Since every resume is unique, the author guides you in building the best resume for you. All in all, it's a good book. You will discover a lot about yourself, it will help you prepare a resume, and you will sharpen your mind for interviewing. 0 of 0 people found the following review helpful. For both novice and experienced job seekers By Midwest Book Review *Nine Stupid Things People Do To Mess Up Their Resume And 16 Ways You Can Avoid The Traps!* is an invaluable guide for anyone who feels that their traditional resume is failing to secure interview opportunities or otherwise not working out for them. The "do's don'ts" of resume writing are clearly laid out in a thoroughly "reader friendly" text. Of special value is Angela Durden section on how to get a raise. *Nine Stupid Things People Do To Mess Up Their Resume* is very highly recommended reading for both novice and experienced job seekers and the corporate career minded inquirer.

A resume is an advertisement designed to open the door to an interview. Most Job Seekers do not have their entire work history details, remember key information, or know what an employer wants and needs. You cannot effectively advertise what you don't know. This is not a book full of OPR (Other People's Resumes). You are looking for a job for YOU, not someone else. *Nine Stupid Things* is full of timeless (and time-saving) hints, tips, and plain common-sense principles that will help you put together your career information for greatest impact. It will allow you to manage your career information by giving you ONE place to keep ALL pertinent job related information. It is a book that will be your companion for many, many years to come.

"Avoiding these nine pitfalls will put you light years ahead in preparing an effective resume." -- Marcia A. Champagne, Partner, Jordon Champagne Inter Search Ltd. "Don't compose your resume without first checking out *Nine Stupid Things People Do To Mess Up Their Resume*." -- G. Gordon Liddy, nationally syndicated talk show host "Durden has written a rich, readable and pithy guide for resumes which....will be an invaluable tool...enhancing employment prospects." -- Jim Nalley, President and CEO, The Nalley Companies "Savvy advice for every job hunter. Break Durden's rules at your peril." -- Joseph R. Garber, Columnist, Forbes Magazine Angela K. Durden has written a rich, readable and pithy guide for resumes... -- Jim Nalley, President and CEO, The Nalley Companies From the Author I want to thank Phillip from TN for highlighting so well the *Nine Stupid Things People Do To Mess Up Their Resume*. He is absolutely correct when he says there is nothing new here in the first part of the book. **THAT IS WHY THE MISTAKES ARE SO STUPID.** You would think people would just KNOW to check for them, but they don't. And thank you even more, Phillip, for the rest of your comments. I loved them! You are a sweetie. About the Author Angela K. Durden has owned her own DTP and print brokering business since the early 1990's. Applying her knowledge of advertising and business to the resume writing and compiling process, Durden has helped Job Seekers further their career goals by helping them know their product themselves thoroughly. She is a Charter member of the Georgia Independent Publishers Association.
