**National Geographic Maps - Reference : North America Classic [Tubed] (National Geographic Reference Map)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised North America Classic [Tubed] (National Geographic Reference Map):

4 of 4 people found the following review helpful. Beautiful map. Just keep the scale in mind. By Fawn A. Beautiful quality and well packaged, so no damage or wrinkles. However, buyers should realize that, because of the scale of the map, this is not an ideal map for using to "mark" cities visited as a family (which was the purpose I originally bought the map for, not thinking about the facts that the United States is too small for that purpose on this map). Still, because the map is so gorgeous, we gave it to a school teacher friend for her school room wall. 1 of 1 people found the following review helpful. Nice Map, But Not For Me By June Damanti A very nice map, but turned out to not be

detailed enough for my needs...a result of including the whole of North America. I ended up getting a USA map, but if you don't need every little town to show, this is a very nice map. 0 of 0 people found the following review helpful. Four Stars By VJoMcCuGorgeous map with great detail of North American locations!

From the far northern reaches of the Arctic Sea to the Isthmus of Panama, this Classic style political map of North America features trademark National Geographic detail and accuracy. The bright color palette features blue oceans and stunning shaded relief that has been a signature of National Geographic wall maps for over 75 years. Political boundaries are clearly defined, and place names, airports, major roadways, and other geographical features are easy to read. In addition to Canada, the United States, Mexico, and Central America, coverage includes Iceland, Greenland, the island nations of the Caribbean, Venezuela, and most of Colombia. An inset map shows the Aleutian Islands off the coast of Alaska. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:14,009,000 Sheet Size = 23.5" x 30.25"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
