Better ChoiceBy California DougThis map has a scale of 1:800,000 and is easier to read than the Michelin edition (I know Michelin reputation is great, but...)It advertises six city maps, but only Oslo and Trondheim are in Norway! Others are Copenhagen, Malmo, Goteburg and Stockholm ;-/ and they aren't very detailed inside the cities.This is a huge map when unfolded, and I will get the sectional map for commonly traveled areas instead.0 of 0 people found the following review helpful. Awful!!!By Nursebetty911This map is so big that it is ridiculous. You cannot plan your trip if you plan on going any distance because some of your trip will be on one side and the rest on the other. Believe me, this is not a map you can just "turn over" easily...it's enormous!!! Decided to write this review because I am back online to try to find another Norway map that I can actually use!!0 of 0 people found the following review helpful. Good mapBy Catherine. Heathcliffgreat detail of the fjords. We were on a cruise and wanted to see the fjords into which we were sailing. This map was exactly what we wanted. Yes, it is big. But for us that did not pose a problem. We will look for a Marco Polo map for our next trip.
