**Allen P. Sacharov : Offbeat Careers** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Offbeat Careers:

From School Library Journal YA From the exotic (go-go dancer) to the sublime (symphony conductor), the pros and cons of 88 careers, arranged alphabetically, are described in one- to three-page chapters. Included are addresses of schools or unions, necessary experience, expected salaries, and working conditions. Copyright 1988 Cahners Business Information, Inc. From Library Journal Pyrotechnicians "get a bang out of their job." Such is the lame humor that punctuates this directory of peculiar, but not very, occupations. Surely everyone knows a bridal consultant, a hospice worker, a blacksmith, or at least an animal trainer? Although the information is reliable, consisting of a brief description of duties and the job situation, with organizations or schools to contact, the careers are so arbitrarily chosen that the book can only be recommended for browsing in the unemployment office. At least it's not a rewrite of the Occupational Outlook Handbook. Barbara Carow, Morrill Memorial Lib., Norwood, Mass. Copyright 1988 Reed Business Information, Inc.
