**Janet Millington, Carolyn Nuttal : Outdoor Classrooms: A Handbook for School Gardens, 2nd Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Outdoor Classrooms: A Handbook for School Gardens, 2nd Edition:

3 of 3 people found the following review helpful. Excellent!By Moria KingLots of great ideas, material is well laid out, great illustrations. Even though we live in the northern hemisphere we can easily adapt the ideas, plants and materials.

Outdoor Classrooms: A Handbook for School Gardens is ideal for teachers and home educators who want to incorporate education at all levels of the school curriculum with an emphasis on: setting up edible gardens teaching

children about growing food food security and economics human and planetary health permaculture and sustainability. Beautifully illustrated throughout, *Outdoor Classrooms* is presented as two streams of thought: Carolyn takes us through the history of school gardens and articulates the need for a revival before leading us on an enticing journey of the imagination into the schoolyard and delight in the natural world. Janet then offers a comprehensive and practical plan for developing a successful, supported school garden that has the potential to benefit an entire community.

*Outdoor Classrooms* is ideal for teachers and home educators who want to incorporate outdoor education at all levels of the school curriculum, with an emphasis on setting up vegetable gardens, teaching children about growing food, economic concerns, human and planetary health and future sustainability. Vicky Gould, *Permaculture magazine* About the Author Janet Millington and Carolyn Nuttal (coauthor) are experienced primary school teachers and permaculturists in Queensland, Australia. This is the culmination of many years, teaching in and out of the classroom, of practical gardening experience, and learning how best to integrate the outdoor classroom with all levels of curriculum.
