Previously I would have to put on my glasses and look through the tiny print in my dictionary to find the correct spelling. With this large print dictionary I can quickly locate words that I am trying to find. There are a couple of unexpected plusses in the back of the dictionary. There is a "Commonly Confused Words" section that explains things like when to use "affect" or "effect". There is another section called "Usage Notes" that explains things like when to use "continual" instead of "continuous".2 of 2 people found the following review helpful. do not recommend for anyone above a 4th grade reading level. 0 of 0 people found the following review helpful. Just what eye doctor ordered, so to speak.
