Impressed with 's deliveryBy Kathy BI needed 10 copies of the Oxford Dictionary of Current English as I am teaching a course in Kenya leaving very soon. 's site said they had 4 copies left. They sent me 3 packages of my books. I was impressed with that. I assumed that they went to their own vendors and obtained copies one-at-a time to fulfill my order of 4 books. My husband and I are frequent customers of . Thank you for being so trustworthy, economical, and efficient in delivery. You are THE best!0 of 0 people found the following review helpful. My favorite dictionary of all time.By AdrenalineI have been using this dictionary version for 5 years or so. It has almost every single word I have ever had to look up. By comparison, often I will try to look up 5 words in a row in 2 or 3 other random dictionaries and the words will not be there, but they will be in this one. This is the second copy of this dictionary I have owned, because the first one got water damage. Seriously if you actually want to find your words, get this dictionary.1 of 1 people found the following review helpful. Nice book, but lacks phonetic transcriptionsBy ArsenyThe book itself is pretty nice: it has a lot of words, and the explanations are put in a right way. The big problem with it though is that it lacks phonetic transcriptions for many non-standard words. The most strange words do have phonetics shown, but some gray-zone words, which are somewhat more mainstream, but may be a problem for foreigners, don't show a transcription. So in these cases we have to double-check these words in the Internet. Otherwise, a nice book.

The Oxford Dictionary of Current English is the most comprehensive paperback dictionary of its kind, providing full and up-to-date coverage of English as it is used today around the world. The Dictionary offers over 120,000 words, phrases, and definitions, and uses a straightforward writing style that avoids technical language, ensuring that definitions are even clearer than before. This edition includes over two hundred new definitions, words from technology, current events, or popular culture that have only recently become part of our mainstream language, such as "A-list," "domain name," and "WMD." It uses thousands of examples to illustrate idiomatic usage, showing how words and phrases are used in everyday speech. In addition, all irregular noun, verb, and adjectival inflections are spelled out in full, while in-text notes provide guidance on grammar and good usage. All of these features are presented in new layout designed to be as clear as possible, making information easily accessible and the definition you are looking for a snap to find. Compact and portable, with high quality binding and covers, the Oxford Dictionary of Current English is perfect for everyday reference, at home, at school, or in the office. No one should be without this incredibly useful volume, while students and authors will find it an indispensable tool. Features: The most comprehensive paperback dictionary of its kind Over 120,000 words, phrases, and definitions Simple writing style makes definitions even clearer than before Full and up-to-date coverage of English as it is used today around the world Over 200 spelling notes give advice on commonly misspelled words, such as 'accommodate' and 'receive' Additional usage notes offering advice on good English and commonly confused words Additional help with the pronunciation of difficult words Thousands of real examples of usage show how the language works in context

About the AuthorCatherine Soanes is Project Editor for English Dictionaries at OUP.
