**Colin McIntosh : Oxford Italian Grammar and Verbs** before purchasing it in order to gage whether or not it would be worth my time, and all praised Oxford Italian Grammar and Verbs:

0 of 0 people found the following review helpful. Good learning supplementBy raymond gaetanoThis is a useful

grammar book. It presents a good overview and is easy to use. A good supplement to a course, not self sufficient on its own. The course could be from a school text, or an on line learning experience such as duo lingo. 7 of 8 people found the following review helpful. It's ok but could be better. By Keith The problem with 'small books' like this one is that they don't include all that you need to know. I also find that the organization of the book is poor, and it requires you to jump around a lot. I think that makes using the book difficult. It can be a good reference, but there are some better ones to use. Sometimes bigger is really better, and I think that it is the case with this book. There is a book written by an Italian author that is about the same size that is better organized. I also disagree with one review who said Prego was 'bloated' -- Prego is probably the best book to use as a beginner hands down. Grammar is explained concisely and in a way that is conducive to learning. It's expensive, but I'd try to save up for it and buy it. 4 of 5 people found the following review helpful. Excellent Reference. By MaryMRI always find a quick, concise answer to my grammar questions in this little book and highly recommend it.

This brand-new guide to Italian grammar provides clear and simple explanations of today's written and spoken Italian. Comprehensive and easy to use, with coverage of all the key points of Italian grammar, it is the ideal reference tool for users at all levels as a learning tool or as a revision aid. It can be used to support any Italian language course, and is ideal for use with Oxford's Take off in Italian and other audio language learning packs. The thousands of examples included are formatted in an instantly accessible layout to show how the language works. Detailed tables of regular and irregular Italian verbs are clear and easy-to-use and all grammatical terms are explained in a glossary.
