Oxford Dictionaries : Oxford Italian Mini Dictionary before purchasing it in order to gauge whether or not it would be worth my time, and all praised Oxford Italian Mini Dictionary:

It will fit in a BIG purse or a BIG pocket... but don't buy it if you're looking for something super small. It's pretty thick width-wise -- think of 2 iPhone 4S in Otterbox Defender cases stacked on top of each other. The resource itself is useful. The font is small with a lot of abbreviations/symbols so they can fit so much information into one book. It is extremely detailed, and maybe even a little too detailed for my business trip to Italy. I plan to return it due to my misunderstanding of its size, but it could be very helpful to someone

who is studying Italian or planning to be in Italy for an extended period of time.0 of 0 people found the following review helpful. Five StarsBy A. A. Compact UsefulBy Josmary MedranoI'm in Italian Writing Class and it comes in very handy when I obviously need to look up a word. Obviously not as useful for conjugation, but certainly for words and some phrases.
