From imusti : Oxford Paperback Dictionary Thesaurus before purchasing it in order to gage whether or not it would be worth my time, and all praised Oxford Paperback Dictionary Thesaurus:

No favours done here to the name of Oxford dictionary and ThesaurusBy bookworm maryVery useful as I thought it would be. perhaps a bit staid , thought their might have been more in it somehow being an oxford dictionary and thesaurus! Perhaps I should have gone more for the Thesaurus. As to the dictionary itself. I needed an up to date one but when I came to look certain words up in it, they weren't there.

Admittedly ,some of them were of foreign extraction, but I thought the Oxford contained everything! How wrong was I. from what I remembered this was the case? obviously as a paperback version, contents massively cut back! great shame.0 of 0 people found the following review helpful. I did order the packet dictionary as well since this one is way too big for my 5th grader. He uses both of them now and loves how simple they are to use, yet full of information.This one is a winner!!!
