JohnR's MomI teach and tutor ESL to adults at the beginning levels. These workbooks, in conjunction with the Oxford Picture Dictionary (Second Edition), are handsdown the best tools that I've found to teach vocabulary by subject -- example: describing things; colors; prepositions of location; describing people; describing clothing; ... ; money; measurements; ... shopping; ...; grocery shopping (unit by each area - fruit, vegetables, meats, packaging...); medical (appointments, hospital, pharmacy....). FANTASTIC RESOURCE!!!!0 of 0 people found the following review helpful. PerfectBy TracieThese books are great for learning English I ordered this for my husband I will update you guys later....0 of 0 people found the following review helpful. Tutoring Resource MaterialBy N. BruceI am making this book part of my arsenal for tutoring students who want to learn the English Language. They need to get comfortable with using the language and I need materials that will help them.

Content is organized within 12 thematic units, including Everyday Language, People, Housing, Food and Recreation. Each unit starts with an Intro page (new to this edition) and ends with a story page, with single or double-page sub-topics introducing new words in a realistic visual context and easy-to-learn "chunks."The target new vocabulary is listed and simple practice activities help students put their new words into practice.Story pages include pre-reading questions to build previewing and predicting skills and post-reading questions and role-play activities to support critical thinking and to encourage students to use the new language they have learned. Rich visual contexts recycle words from the unit. This structure is designed to address the needs of multilevel classrooms.Supporting components include more guidance on this topic as well as assessing needs and lesson planning.
