National Geographic Maps - Reference : Pacific Crest Trail Wall Map [Boxed] (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pacific Crest Trail Wall Map [Boxed] (National Geographic Reference Map):

2 of 2 people found the following review helpful. Lovely Map PosterBy Lady the RookGreat map for inspiration and for a planning guide. Get one for friends and family before you hike the PCT so they can follow your progress. (This is not an item you'll use on the trail, and I guess if this isn't self evident, you aren't ready for your trek.)5 of 5 people found the following review helpful. The map itself is excellent; howeverBy Donna RamboThe map itself is excellent; however, the line for The Pacific Coast Trail is a little light for my taste. A bolder, blacker line would be better, in my opinion. I actually bolded the line myself with a black marker, and now I can see it clearly from as far as 5/6 feet away.6 of 6 people found the following review helpful. She absolutely loved it, and it looks great on the wallBy Rachael H.Christmas gift for my mom to help her track my progress on the trail this year! She absolutely loved it, and it looks great on the wall; super easy to read! Thank you!

National Geographic's map of the Pacific Crest Trail is ideal for fans and hikers of this magnificent National Scenic Trail. It makes a great planning tool or as reference to track progress on the 2,600 plus mile length. This beautiful map shows the entire length of the trail from Mexico to Canada through California, Oregon, and Washington. A unique elevation profile highlights the trail's peaks and valleys, and an informative mileage chart shows the distance between key locations. Also highlighted on this map are passes, peaks, national forests, national parks, state parks, and Indian reservations. Additional points of interest include lodges and campgrounds near the trail.The map is packaged in a full color box that is perfect for gift giving. The box includes details about the map with its size and scale as well as a large section of the map that displays the cartography found inside.Map Scale = 1:1,700,000Sheet Size = 18" x 48"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking.Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
