National Geographic Maps - Reference : Pacific Crest Trail Wall Map [Laminated] (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Pacific Crest Trail Wall Map [Laminated] (National Geographic Reference Map):

0 of 0 people found the following review helpful. Five Stars By TOJ Awesome details. Way to go National Geographic. 0 of 0 people found the following review helpful. Five Stars By Kathy J. Perfect map to follow our friends' journey on the trail this year. 0 of 0 people found the following review helpful. Great quality map except.... By Customer I received a packaged Pacific Crest trail map, however inside was the AT. Great map, just not the one I need, I look forward to upgrading my response once I receive a correct item

National Geographic's map of the Pacific Crest Trail is ideal for fans and hikers of this magnificent National Scenic Trail. It makes a great planning tool or as reference to track progress on the 2,600 plus mile length. This beautiful map shows the entire length of the trail from Mexico to Canada through California, Oregon, and Washington. A unique elevation profile highlights the trail's peaks and valleys, and an informative mileage chart shows the distance between key locations. Also highlighted on this map are passes, peaks, national forests, national parks, state parks, and Indian reservations. Additional points of interest include lodges and campgrounds near the trail. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:1,700,000 Sheet Size = 18" x 48"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
