It wasn't a bad start but I had already ready Baby Bargains which I thought was MUCH better at actually pointing out what is more practical and also rated all the different brands. This book is more just common sense like listing all the types of furniture a baby can sleep in. But it didn't address practicality of one over the other or safety

concerns of one over the other. It does have some nice tips here and there. But I honestly didn't even make it halfway through before I stopped reading it so maybe I shouldn't write a review but I feel its worth warning others that they may find other books more useful. Instead I take Baby Bargains shopping with me in order to help me make my purchases. 1 of 1 people found the following review helpful. Not what I had hoped...By H. HeathAs some other reviewers have noted, this book doesn't offer a lot of information about specific brands of products or specific recommendations for that matter. I would have liked that. And as a first-time parent, I would have appreciated more in terms of suggested lists. On the plus side, I did find a couple of helpful hints that we'll use and liked that it gives good guidance regarding what to look for in products (but I think you find comparable information through an internet search). I wish I had heard about the Baby Bargains book earlier - from what I've heard from other parents, that is more along the lines of what I needed. 5 of 5 people found the following review helpful. A Good Place to StartBy Nicole S. DonaghySince I'm pregnant with my first child, I was having a difficult time deciphering what we truly need for when the baby arrives. I found this book to be a good place to start, with explanations of various "baby equipment" that I didn't even know existed. Who knew babies need all this stuff? I also recommend using [...] to find more ratings on the items that are discussed in this book.

Gearing up for a new baby can be an overwhelming, expensive undertaking. "Baby Must-Haves" keeps it as simple (and affordable) as possible, presenting the collective expertise of the editors of "Parenting" magazine and hundreds of mums across the country. Organized according to product category, this full-colour, beautifully photographed portable reference gives the whole scoop on everything from nursery essentials and on-the-go gear to childproofing products and what-they-never-tell-you advice. Written with warmth and expertise, this guide offers not only where to find the best crib for your budget, but the best way to make it up (with an extra sheet in case of wee-hour nappy leaks!) to save time and make life with a baby easier, and more fun. Brand recommendations, hundreds of priceless tips, a "Skip, Save, or Splurge" feature, and photos throughout make this the must-have reference in the category. For over 20 years, "Parenting" magazine has been a must-have for all mums.
