David Allen Hulse : The Eastern Mysteries: An Encyclopedic Guide to the Sacred Languages Magickal Systems of the World (Key of It All) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Eastern Mysteries: An Encyclopedic Guide to the Sacred Languages Magickal Systems of the World (Key of It All):

0 of 0 people found the following review helpful. Another excellent book that is packed with so much information it

...By LE.PAPE Another excellent book that is packed with so much information it will never leave you bored. The Author knows his stuff that is for sure. 1 of 1 people found the following review helpful. A good overview of magical systems By Newton I would recommend this book to anyone who wants to get a rough and quick overview of the mysteries of the east. I personally missed some sort of magic that would keep me reading on and on but it is very good to get a quick impression of the foundations of Eastern mysteries. The book is designed like a lexicon and because of this it misses the charme and depth other books on this topic have. 10 of 10 people found the following review helpful. Overwhelming By Customer Can anyone truly digest all the knowledge in this book and its companion the Western Mysteries. It is impossible, but as references for whatever you indulge yourself they indisposible. If you want to figure out sanskrit or hebrew, either to write or number, or even to explore the magical implications of language, these books are a must for your bookshelf. You will find something useful for whatever path you follow.

In scope and clarity, there is no book that can compare to The Eastern Mysteries. This reissue of David Allen Hulse's landmark work is the one book all students of the occult must own. It catalogs and distills, in hundreds of tables of secret symbolism, the true import of each ancient Eastern magickal tradition. Each chapter is a key that unlocks the meaning behind one of the magickal languages. Through painstaking research and analysis, Hulse has accomplished an unprecedented feat that of reconstructing the basic underlying systems that form the vast legacy of mystery traditions. The real genius of this accomplishment is that it is presented in a way that is immediately understandable and usable. Although the book deals with many foreign scripts, ancient tongues, and lost symbols, it is designed for the beginning student. Included is a wealth of cross-references, excellent introductory material and overviews, an extensive annotated bibliography, and new to this edition a complete index.

From the Publisher There are some books you read through and others that you not only read, but return to, time and time again. The Eastern Mysteries (previously published as The Key of it All Book 1: The Eastern Mysteries) by David Allen Hulse will be such a book for you. One of the most important creations in human history is language. Within the letters and words of virtually every culture, there have been hidden mysteries and magick. In The Eastern Mysteries you will find the occult keys to: Cuneiform Hebrew Arabic Sanskrit Tibetan Chinese Each self-contained section can be read as a separate work. Each secret tradition revealed parallels the others. Extensive cross-references allow you to contrast and compare the mystical and magical beliefs of the ancient cultures. You'll find the entire text of the famous I Ching, along with meanings of the symbols and how to do readings. The 231 Gates of the Sepher Yetzira are fully described, including their relationships to astrology and the Tarot. This just barely hints at the massive amount of information in The Eastern Mysteries. No matter what system you follow, you will consult this book again and again. Get your copy today. From the Back Cover UNLOCK THE MEANING OF EASTERN MAGICK In scope and clarity, there is no book that can compare to The Eastern Mysteries. This reissue of David Allen Hulse's landmark work is the one book all students of the occult must own. It catalogs and distills, in hundreds of tables of secret symbolism, the true import of each ancient Eastern magickal tradition. Each chapter is a key that unlocks the meaning behind one of the magickal languages. Through painstaking research and analysis, Hulse has accomplished an unprecedented feat -- that of reconstructing the basic underlying systems that form the vast legacy of mystery traditions. The real genius of this accomplishment is that it is presented in a way that is immediately understandable and usable. Although the book deals with many foreign scripts, ancient tongues, and lost symbols, it is designed for the beginning student. Included is a wealth of cross references, excellent introductory material and overviews, an extensive annotated bibliography, and -- new to this edition -- a complete index. About the Author From an early age, David Allen Hulse diligently studied the alphabets of the ancient world. As a child, David possessed a great affinity for the alphabets of Egypt, Phoenicia, and Greece. In college, a reading of MacGregor Mathers' Kabbalah Unveiled opened up the Hebrew alphabet-number technique of Qabalistic research. After Hebrew, many other ancient languages were decoded and studied, including Sanskrit and Tibetan. In 1979, a discovery led to the need to capture the extent of all prior Qabalistic research into one great reference work. Research is still being carried out to discover new definitions for the number series as well as new magickal systems.
