Jist Publishing, Bill Corbin, Shelbi Sright : The Edge Resume and Job Search Strategy before purchasing it in order to gage whether or not it would be worth my time, and all praised The Edge Resume and Job Search Strategy:

1 of 1 people found the following review helpful. AN OUTSTANDING, PRACTICAL MANUALBy TasksmithResume writing is a daunting task I've hated for years. Determined to make this a positive experience by tackling the task in new and creative ways, I spent one and a half hours looking through dozens of books on the subject. I chose this one first. But, not until I had looked through dozens more did I come back to THE EDGE and sit down to take a cautious look at its content. At first glance, this is a book packaged to sell and, afraid of "hype-stuff," that made me not trust it initially. (It includes inserts of four-color resumes on real stock inside that, later, I came to find extremely useful.)The authors of the book practice what they preach.I read THE EDGE in its entirety in one sitting, and discovered that after 22 years of being in the job market there were still a few things I didn't know. I reccommend it highly. Even if you find THE EDGE a bit extreme, the strategies presented in it are practical and relevant to today's job market. (One small section includes tips on scannable and electronic resumes. An extensive

appendix includes worksheets you can photocopy.) You can aim between THE EDGE ideas and conventional ones, and still come out ahead.2 of 2 people found the following review helpful. A Revolutionary Approach to ResumesBy GeorgeCreative resume-writing is often the only thing that gets an applicant noticed. This book is a creative resume writing almanac! Authors Corbin and Wright show hundreds of creative resume examples that can be adapted to almost any situation. Creative use of graphics, icons, and paper create a visual image that is sure to resonate with the hiring authority. Especially great for lawyers, teachers, tech jobs, and professionals.2 of 2 people found the following review helpful. This got me the job i neededBy A CustomerThis book helped me out so much I couldnt even fit in this box. But the ideas that suggestions that they make are priceless!

Leads you through the process of crafting a welltuned resume that captures the attention and respect of the reader and one that serves as your first step to that great job. Softcover.
