Great Tile Reference Book !By American DoodahThis is a typical Schiffer-published book: beautiful large clear photos, quality paper and printing. The information provided for each company is informative and complete. This is a must-have for collectors, appraisers and historians of fine art (all me). This is one of a series of tile books, each from a different geographic area and I'll be buying the rest of them when I've saved my pennies. They are pricey

but well worth the cost.

Over 4500 images appear in this beautiful and comprehensive, four-volume set. This massive compilation reveals the great diversity and intrinsic beauty of art tiles produced across the length and breadth of the United States from the late nineteenth through the twentieth centuries. Tile installations of great beauty include panels, individual tiles, and inserts adorning building facades, interiors, furniture, and garden ornaments. These volumes explore the wildly varying themes and distinctive art styles of six regions of the nation. Among the 161 companies represented are A. E. Hull, American Encaustic, Brayton Laguna, California Art Tile, Catalina Pottery, Flint Faience, Gladding McBean, Grueby, Marblehead, Newcomb, Niloak, Pacific Clay Products, Rookwood, Saturday Evening Girls, and Weller. The text includes tile identification as well as valuable advice on collecting art tiles, a glossary, an index, and bibliography. This set is an essential reference for all who are fascinated with the ceramic arts. Region 3: Over 1300 images display art tiles produced in the Midwestern states Ohio, Michigan, Indiana, Illinois, Wisconsin, Minnesota, North South Dakota, Iowa, and Missouri by many companies, including: A.
