Glenna R Schroeder-Lein : The Encyclopedia of Civil War Medicine before purchasing it in order to gage whether or not it would be worth my time, and all praised The Encyclopedia of Civil War Medicine:

1 of 1 people found the following review helpful. Amazing book!By gina bobicchioThis was an amazing book! I wrote my research paper with a lot of information from this book that I would not have found from any other resource. I enjoyed it and others need to read what men went through in the battle of the Civil War told for a medical perspective. Excellent!1 of 1 people found the following review helpful. Very Informative BookBy Sharon A LavyI am in the process of brainstorming a novel about the Civil War and this book had more useful information than any I have read so far.1 of 2 people found the following review helpful. Civil WarBy The EngineerI purchased this as a gift

for a Civil War buff and a doctor. He loved it and passed it on to another doctor after he finished it.

The American Civil War is the most read about era in our history, and among its most compelling aspects is the story of Civil War medicine - the staggering challenge of treating wounds and disease on both sides of the conflict. Written for general readers and scholars alike, this first-of-its kind encyclopedia will help all Civil War enthusiasts to better understand this amazing medical saga. Clearly organized, authoritative, and readable, "The Encyclopedia of Civil War Medicine" covers both traditional historical subjects and medical details. It offers clear explanations of unfamiliar medical terms, diseases, wounds, and treatments. The encyclopedia depicts notable medical personalities, generals with notorious wounds, soldiers' aid societies, medical department structure, and hospital design and function. It highlights the battles with the greatest medical significance, women's medical roles, period sanitation issues, and much more. Presented in A-Z format with more than 200 entries, the encyclopedia treats both Union and Confederate material in a balanced way. Its many user-friendly features include a chronology, a glossary, cross-references, and a bibliography for further study.
