Mickey Baskett, Cindy Gorder, Connie Sheerin, Vicki Payne : The Encyclopedia of Craft Projects in an afternoon: Easy, Step-by-Step Crafts with Basic How-To Instructions-All Illustrated with Over 500 Photos! before purchasing it in order to gage whether or not it would be worth my time, and all praised The Encyclopedia of Craft Projects in an afternoon: Easy, Step-by-Step Crafts with Basic How-To Instructions-All Illustrated with Over 500 Photos!:

1 of 1 people found the following review helpful. Basic book for quick crafting projectsBy G. TolliverNicely illustrated book with basic directions for stained glass, glass painting, greeting cards, mosaics, picture frames, and wire jewelry projects to be completed in (about) an afternoon. You will spend more time shopping for supplies than it takes to complete one of these projects.400+ pages include clear instructions and lots of patterns for the featured projects. A nice book to have on hand in your crafting library.I did purchase a used book, but it was in very nice condition and

shipped promptly. I'm happy with my purchase.1 of 1 people found the following review helpful. Craft Projects BookBy Tammy S. StoneThis book has a lot of stuff to offer! It is a great teaching tool for those who want to learn these things on their own, and is a great resource for those who just need a "refresher" on some things. I would highly recommend it to everyone!!0 of 0 people found the following review helpful. This book is great!By PezmomThis is one of the best craft books I've bought. It has the the greatest examples of projects. There are 4 sections of crafting. Each one, mosaics for example, has so many beautiful, practical projects. I could see myself making almost everyone of them.

In just a weekend, crafters can get their creative juices flowing with this goldmine of creative techniques and projects-448 jam-packed pages worth of great ideas. Every one is fun, easy to complete, and doesn't require a major investment of time or money. Use dried flowers in new and unique ways to enhance cards and candles, and to create lovely aromatic coasters. Out of paper come beautiful photo storage boxes, Japanese washi bracelets, and even a chic checkerboard. The quilting section features a score of practical and exquisite items, including silk pillbox hats and embroidered window valances. And with the ideas for macram, metal embossing, and decorative finishes for furniture found here, anyone will achieve fantastic results, and become a skilled crafter, too.
