It was weird-- he actually didn't like it but I think any kid who really loves dinosaurs will love it. I don't even like dinosaurs that much but I thought the book

was awesome for kids-- not comprehensive, but well illustrated and informative.0 of 0 people found the following review helpful. Five StarsBy Steven R. ChadboneGreat book

This groundbreaking encyclopedia presents an expert and lavishly illustrated guide to the world's best-known dinosaurs, together with many lesser-known species from the Triassic, Jurassic and Cretaceous periods of Earth's history. Featuring more than 600 illustrations, maps, charts and timelines, this unique volume, with its unprecedented combination of the latest expert research and beautiful visual reconstructions, will be an endless source of interest for dinosaur enthusiasts everywhere.
