We cant keep it on the shelf.17 of 18 people found the following review helpful. good but not greatBy A CustomerGood but not great This is a good book for the price but not as good as I had hope. First, the good parts. This book has a lot of

color photos(around 900)and it does cover a lot of cars(McLaren, Ferrari, Porsche, NSX, Lamborghini, BMW, Lotus, Viper, Corvette, Mercedes, De Loren, Jaguar,...). Unfortunately, that is the biggest reason why I didn't like it. Because it covers so many cars it spends very little time on each car(about 2-4 pages for each manufactures NOT each cars, noted exception is the Ferrari section which is 12 pages BUT for 7 different Ferrari). The other major problem is that it has many cars that nobody would consider as DREAM CARS(Jeep, Camaro, Renault Espace and Twingo - both are VANS!!, Miata, Peugeot 205GT1, Volkswagon Golf! Give me a Break!). This could have been a great book IF they had focus on real dream cars and go into detail. Lets say 5+ pages for EACH cars rather than each automaker. I'm tempted to give this book 2 stars instead of 3. A good book for the Beginner car enthusiast but for the rest of us - better to spend more money on a better book.0 of 0 people found the following review helpful. Good Pictures, but boringBy A CustomerI bought this for my boyfriend for his birthday and he's a car enthusiast. Anyway, I thought it would be a great present but it turns out that it was just way to boring for him. Not very exciting...

With over 700 stunning images of cars, this book is a definitive gallery of classic and dream cars and t he decisive reference for any enthusiast, collector and love r of the automobile. '
