BrunellFormat:Paperback|Amazon Verified PurchaseLinnie Thomas has boldly stepped forth to announce to the world

that the time has come to take Energy Medicine quite seriously. The expression of content with over 60 energy healing techniques and approaches along with valuable current contact information offers support to many of us as we can now see the numbers and the breadth of our work and know that we are not alone or isolated. Highly recommend this publication to all healers of every approach. Ted Brunell, Holographic/Resonance Repatterner, Reiki Master

Review Format: Paperback  
Alternative medicine is increasingly part of a traditional medical paradigm. "The Encyclopedia Of Energy Medicine", written and compiled by certified Healing touch practitioner and instructor Linnie Thomas, and expertly edited by Llewellyn Worldwide editor Carrie Obry, is an impressive 568-page compendium providing readers with the history and utilization of a variety of energies utilized as complementary medicines with respect to illnesses and injuries. Presented in an encyclopedic format organized into four major sections (Eastern, Western, Spiritual, and Shamanic),
