From Kessinger Publishing, LLC : The Encyclopedia Of Occult Sciences before purchasing it in order to gage whether or not it would be worth my time, and all praised The Encyclopedia Of Occult Sciences:

0 of 0 people found the following review helpful. Wow second and third parts not there.By CustomerThis book was good for what was inside of it. But it suppose to come with three parts. And the second and third parts are not there yet written in the table of contents. This book was not what it's worth.2 of 5 people found the following review helpful. Five StarsBy C.Excellent!0 of 0 people found the following review helpful. An encyclopedia that actually can be a

solid reference. By Theoni Lussos Covers just about every type of "occult" or esoteric practice out there, including the secret societies (Rosicrucians, Free Masons) but neither the Sabian Assembly or Thelema.. It mentions esotericists I never heard of, like Mdm de Thebes; de-sciences dreams back to their prophetic and Biblical origin; goes through the whole tarot, allot of astrology with old meanings that I found relevant ...a strong moon oftens means a weak voice, no orator here....cheiromancy (palmistry)...all in one book. I like it and highly recommend it.

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.
