**Robert A. Slade : The Encyclopedia Of Old Fishing Lures: Made In North America - Volume 4** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Encyclopedia Of Old Fishing Lures: Made In North America - Volume 4:

0 of 0 people found the following review helpful. ENCYCLOPEDIA of OLD LURES- Most informative By PATI Cakes This set of books is made for SERIOUS collectors wanting information about the lures and Lure makers. One of the most advanced, with selections and information of Lure Makers. Not a book of "prices" per say, but better as value guide in comparison to other lures. (keep in mind "prices vary with market condition/ collectability and condition and

color pattern of each lure")Great close up pictures , and a LOT of Pictures of various lures.Could only be made better, with some color picrures of examples, and more complete in various lures from each manufacture. (Not ALL lures from each of companies represented, but THAT would be next to imposible to accomplish with any book of this type)0 of 0 people found the following review helpful. Excellent coverage of the lesser known lure makers in AmericaBy Frank CarterThis set of books provides coverage of lesser known lure makers for the first time. It is a great body of work that will hopefully be built upon for complete coverage of all of the lure makers in America.

Format Paperback Subject Fiction
