Any sort of pasta sauce you could hope to make is in here. A family favorite, the angry sauce, was from this book. It's got a hint of humor throughout the book and you can tell that the author is serious about food and not much else. It's fun to learn how to cook various sauces with this book. If you want to make your own sauce and don't know where to start, this book is for you. It tells you the flavor profile of the sauce,

as well as what shapes of pasta go well with it. If you're just looking to expand your pasta sauce repertoire, this is also the book for you. This seriously has like, every sauce the home cook could want. And if it doesn't have your sauce, it at least gives you a basis to make your own. I would totally recommend this book to anyone who has a pasta addiction. 0 of 0 people found the following review helpful. Amazing book. I was given a copy Years ago ...By Lauren B. Amazing book. I was given a copy Years ago and it was falling apart. I was very happy to find another copy since it isn't printed anymore. Highly recommend! 0 of 0 people found the following review helpful. most comprehensive book I've seen By Marilyn So far I've tried a handful of sauces and they've all been winners. I'm less than halfway through the book and i have SO MANY pages marked to try that it will take me the next couple years to get through them all, but I've already recommended this book to a few friends. Everything has been a winner. I tried a sauce with 3 ingredients last night and my picky husband loved it - I really thought I was going to have leftovers for lunch. I'm not a huge fan of marinara sauce, but those are great too. I'm dying to try an anchovy sauce because - hey - everything else is good, so why not? Very highly recommended.

Cooks have access to the largest and most extensive collection of delectable pasta sauces in this comprehensive sauce cookbook.
