**Phil Hardy : The Encyclopedia of Science Fiction Movies** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Encyclopedia of Science Fiction Movies:

1 of 1 people found the following review helpful. A must for any die hard Sci Fi fanBy D. ChamberlinThis book is getting a bit dated by now - as it was published in 1984. It has information about every SciFi movie since the beginning of time to 1984 - with many photos as well. There are movies included that I would not consider SciFi - that are really horror movies - but the book makes up for this in its detail and review of each movie. I discovered many films after reading about them in this book. I wish there was a sequel to bring it from 1984 to the present.0 of 0 people found the following review helpful. Five StarsBy ray brzezinski, tracy brzezinskigreat1 of 1 people found the following review helpful. Author's sense of humor right there. He's knowledgeable of the genre and has put his brain his passion together.By Maggie PucilloSyFy movie buffs, of course.As well, writers and-who else is there!??Good stills from the films.Author is having a good time here.
