Matthijs van Boxsel believes that no one is intelligent enough to understand their own stupidity. In *The Encyclopedia of Stupidity* he shows how stupidity manifests itself in all areas, in everyone, at all times, proposing that stupidity is the foundation of our civilization.

If there is one publication that qualifies for immortality and is also inexhaustible, it should be *The Encyclopedia of Stupidity*. Vrij Nederland Matthijs van Boxsel has collected the most fantastic facts and knows how to share with the reader his pleasure in doing so. *NRC Handelsblad* A superb collection of improbable follies, blunders, errors, stupidities and howlers. An uncommonly cheerful and exciting book. Elsevier About the Author Matthijs van Boxsel is a literary historian who lives in Amsterdam.
