Good buy if you're looking for something off the wall.0 of 1 people found the following review helpful. Love itBy A. ChaplinI got this for my brother. We are from a nerd family. We all had a good time flipping through it.2 of 2 people found the following review helpful. A must

have for any useless information lover! By Seth Bergman Simple one of the greatest books ever! I love useless information (Such as reading about the Bobfest of '92-'94) and the good stuff can only be found in this book!

Discover what all the other encyclopedias leave out This is the superbly satisfying compendium of weird factoids too interesting to be contained in your average encyclopedia. Daring to cross-reference the un-cross-reference-able, to alphabetize what cannot be alphabetized, and to deliver the highest concentration of fun that can fit in one book's spine, this information is too useless to waste: In Denmark, pigs go 'knor'; in Germany, horses go 'prrrh'; in ancient Greece, dogs went 'au au.' Italians sneeze 'eccì eccì.' A teacher in Italy was disciplined in 1996 for passing students exam answers hidden in salami sandwiches. In 1957 the U.S. air force completed a survey of the Atlantic Ocean but refused to divulge its width on the grounds that the information might be of military use to the Russians. In Paris in 1740 a cow was hanged in public following its conviction for sorcery.

The first Artichoke Queen of Castroville, crowned in 1947, was Marilyn Monroe. **MILKS** Swedish cows were fitted with plastic discs impregnated with insecticide in 1984 to keep their heads fly-free in summer. Scientists say this improved milk yield. **ROULETTE** If you add together all the numbers on a roulette wheel, the result is 666, the number of the Beast in the Book of Revelation.
