Marian Faux : The Executive Interview before purchasing it in order to gage whether or not it would be worth my time, and all praised The Executive Interview:

What makes the executive interview so difficult? For one thing, it is based almost entirely on chemistry. At the executive level, where leadership is the commodity that's being bough and sold, it is a candidates ability to get along with and manage others that counts. And one of the most important times to show off this ability is during an interview. This process and other important aspects are discussed in The Executive Interview.
