By Wallace Cason
This encyclopedia is of the people in the industry ONLY. Their movies are listed under their names. You cannot use this so-called encyclopedia for hunting up info on actual films. However, if you want to be in the movies, this would be invaluable to learn about the people in the industry. It's just that it is not made to be a dictionary or encyclopedia of films. Its title would have been more accurate and honest had it been "A Complete Guide to Actors, Directors, Screenwriters, and the People Who Make Films." If you want a guide to actual films, then get Leonard Maltin's "2014 Movie Guide." It lists about 16,000 films, old and current. One thing I'd like to see in Maltin's guide, though, is the names of the characters in the film

which each actor portrays. It lists the director, the major actors, and a brief summary of the movie plus critical comments. It also rates each movie with a four-star system. I say all this because if you checked into the encyclopedia with this title, you were probably looking for something more like Maltin's book. 0 of 0 people found the following review helpful. The Film Encyclopedia: Important Resource for Everyone By Stefano Montinino 12/14/2013 5:48am The Film Encyclopedia Sixth Edition I have been buying this book since 1981, I bought the Hard cover Edition back then. This film book has mini-bio's of actors, directors, producers, crafts men in all of the technical film fields and it attempts to give a thorough overview of their body of work (their film credits over the decades). Some bio's are more in depth than others, it all depends on who it is they are reviewing. I have relied on this book so much over the years that it has sat by my book post for handy reference. I have questioned some of the opinionated text on some of the actors, they have a decidedly bias view on a few well-known actors, the authors downplay their contributions to the film history with a very dismissive and unfavorable attitude. Overall, the book is full of facts about all the major and minor studios, which I have had a keen interest in, how they were formed in the early years, the good years and the difficult years. For instance, the decimation of a great studio like MGM and the rise of a small studio like Walt Disney. Throughout the book, we have definitions of film terms that we see at the end of every movie with the film credits. I like this book. 0 of 0 people found the following review helpful. Great book if you want to know about old movie ... By paris tillery Great book if you want to know about old movie stars. It tells you about there history and listing of movies. This edition is a little older. I had one similar to this but it had pictures, would be nice if future editions did same.

Ephraim Katz's The Film Encyclopedia is the most comprehensive one-volume encyclopedia on film and is considered the undisputed Bible of the movie industry. With up-to-date additions, this sixth edition features more than 7,500 A-Z entries on the artistic, technical, and commercial aspects of moviemaking, including: - Directors, producers, stars, screenwriters, and cinematographers - Styles, genres, and schools of filmmaking - Motion picture studios and film centers - Film-related organizations and events - Industry jargon and technical terms - Inventions, inventors, and equipment - Plus, an index of Academy Award winning films and artists, top grossing films, and much more.

Wow! What a book! (Katharine Hepburn) Recommended for any reference collection in need of a world view of film. (Booklist) The best movie reference book, hands down. (Newsweek) About the Author Ephraim Katz was a writer, journalist, and filmmaker who devoted his life to gathering the information in The Film Encyclopedia. He was working on the second edition at the time of his death in 1992. Ronald Dean Nolen is the former editor of the trade publication Centerstage. Also an accomplished actor, he has appeared in leading roles on Broadway and Off-Broadway as well as in television and film. His most recent project as a producer is the documentary film None Less Than Heroes: The Honor Flight Story. He holds an MFA from the Yale School of Drama and a BA from Hardin-Simmons University, where he serves on the faculty.
