**From Foundation Center : The Foundation Directory 2015** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Foundation Directory 2015:

The foundation directory provides information on the finances, and giving interests of the nation's 10,000 largest grant making foundation - those foundations who were among the top 10 in terms of awards made in the latest fiscal year of record. The Foundation Directory is based either on reports received directly from the foundations or on the most current public records available.
