He had a unique style and the food was pretty good too. This is more reference than recipes, but if that's what you want, this will do. 4 of 4 people found the following review helpful. Jeff Smith was a genius. By Paul Larncce Jr I once owned a full set of Jeff Smith's Frugal Gourmet series back in the 90's and was shocked by his demise. The man was a genius despite his dark side, but his recipes still endure the test of time. What do we do? Throw the good out with the bad? 1 of 1 people found the following review helpful. great reference but limited instructions. By dtx75220 Mainly definitions on culinary names and methods, great reference but limited instructions.

collection of American recipes, including cooking terms and procedures
