From GRYPHON HOUSE : The GIANT Encyclopedia of Monthly Activities for Children 3 to 6: Written by Teachers for Teachers (The GIANT Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The GIANT Encyclopedia of Monthly Activities for Children 3 to 6: Written by Teachers for Teachers (The GIANT Series):

0 of 0 people found the following review helpful. This monthly themed helped me plan my preschool classroom so ...By bobbi bates This monthly themed helped me plan my preschool classroom so much! I used it everyday and so did all my colleagues! Everybody wanted this book and many bought after I showed it off! 8 of 9 people found the following review helpful. great book for classroom or homeschool By Debbie L. This book is great for both giving you

activities that are themed based, and crafts to do. It also sites books that can be used with both. There are a variety of activities that can be done in a day or others that are meant to be used over a week or the whole month. Ideas are broken up into months, and also cover Holidays that are in that month. If you can buy only one of these books (in the series) I would choose this one. The arts and crafts book is good too for more craft ideas, but not necessary to have as a companion. 0 of 0 people found the following review helpful. Very helpful! By Amber Monbleau Perfect for preschool!

With over 600 activities, The GIANT Encyclopedia of Monthly Activities is the result of a nationwide search for the most unique, fun, developmentally appropriate, and educational experiences for children. The activities included were selected as the best-of-the-best, and are organized by month for easy use by teachers. Teachers will love the creative ideas that span the traditional areas of the curriculum such as science, math, art, and music and movement, as well as the additional experiences including field trips, cooking, and holidays. Each activity includes instructions and a list of materials, plus possibilities for extending the activity further into the curriculum. Many also include lists of related children's books to further both literacy and imaginative play. Loved by children because they're fun, and by teachers because they are developmentally appropriate, the ideas in The GIANT Encyclopedia of Monthly Activities will captivate children's imaginations and create wonderful opportunities for learning. The Giant Encyclopedia Of Monthly Activities: For Children 3 To 6, written by the team of teachers Kathy Charner, Maureen Murphy, and Charlie Clark for use by fellow teachers, is a vast compendium of inexpensive and educational classroom ideas. Organized by the recommended school month for each group of activities, suggestions range from "Everyone Needs a Nametag" (September) to "Pumpkin Math" (October), "Snow Painting" (January), "Paper Daffodils" (March) and much more. With over 600 options, ranging from projects that take a few minutes to long-running activities over the course of a month, The Giant Encyclopedia Of Monthly Activities is a near-inexhaustible treasure trove of clever ideas. Highly recommended for educators, day care centers, babysitters, and anyone else who works with young children. - Midwest Book From the Back Cover With over 600 activities, The GIANT Encyclopedia of Monthly Activities is the result of a nationwide search for the most unique, fun, developmentally appropriate, and educational experiences for children.
