I bought this book hoping it would have lots of pages, ideas, etc to print off so I could "school" my 3/4 year old. It does have lots of ideas, but they are all in written format and they require a significant

amount of supplies. If that is what you are looking for, this book is great. If you were wanting worksheets, try another book.0 of 0 people found the following review helpful. CumbersomeBy declutterbugI was really excited about this book as I thought it would put fun ideas for my classroom at my fingertips. Sadly this book is awkward to use (organized in an unhelpful way); taking longer to find activities here than it does to search the internet.0 of 1 people found the following review helpful.
