**Gorton Carruth : The Harper Book of American Quotations** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Harper Book of American Quotations:

Ten thousand quotations capturing American life and history.

From Library JournalA follow-up to The Macmillan Book of Earliest Christian Prayers ( 1988 ), this collection contains few hymns as we think of them today, offering instead an assortment of canticles, odes, psalms, and responsive litanies drawn from the first centuries of Christendom. Reflecting the whole theological spectrum of the early church, this will interest students of church history while making a fine tool for devotional reading. ECCopyright 1988 Reed Business Information, Inc.About the AuthorGorton Carruth has been an author and editor of reference books for more than forty years and was a founder of The Hudson Group, which has developed a wide variety of informational books. He lives in Briarcliff Manor, NY.
