Christoph Bartneck PhD : The Harry Potter LEGO Minifigure Catalog: 1st Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised The Harry Potter LEGO Minifigure Catalog: 1st Edition:

0 of 0 people found the following review helpful. Fantastic reference for any Lego Minifigure collectorBy David KirkhamThis update is a brilliant addition to the original tome. For any collector of Lego Minifigures you simply cannot be without this series of books. Great photos really help track down the figure you have (or may be looking for) and ensure you have all the right bits to make a complete minifig, perfect for ensuring your collection is accurate. The

additions of back photo and head shot alongside the main photos really helps to. It's a brilliant addition within these catalog updates to also show the new and used prices for minifigs. Helps ensure buyers and sellers are getting a fair price, i really wish this idea had been thought of in the original:-) One slight drawback is that with the headshot being moved along side the actual figure within the catalog, the separate quick reference collection of heads which was in the original catalog at the rear of the book has now been removed. I used to find this incredibly useful as searching for the parts of a minifig from a large collection of bits is easiest done starting with the head. Often heads are unique to a given minifigure, so if you haven't got that it's pretty pointless building up the parts using the other elements like the legs, arms and torso. Having that reference in one place made it really easy to look up the minifig within the catalog as all the minifigures it may have appeared on were clearly listed under each unique head. This change doesn't affect the usability of the catalogs but it would be great to have that back in again in any future updates:-)

This catalog presents high quality photographs of all Harry Potter LEGO Minifigures. The 130 plus Minifigures are organized by an innovative nomenclature that makes it easy to identify Minifigures. Moreover, the catalog contains a price guide and detailed photographs of the Minifigures heads. This catalog is the essential guide for all Harry Potter Minifigure collectors and enthusiasts.

About the Author Dr. Christoph Bartneck is a senior lecturer at the University of Canterbury, New Zealand. He worked for the LEGO Group in Billund in the 90s, which reignited his passion for LEGO. Since then, he worked in the USA, Netherlands, Japan and now in New Zealand as a researcher and designer. His research focuses on anthropomorphism in robots and figures and his research has been published in acknowledge scientific journals and books.
