Tom Jackson : The hidden job market: A system to beat the system before purchasing it in order to gauge whether or not it would be worth my time, and all praised The hidden job market: A system to beat the system:

0 of 0 people found the following review helpful. Helpful book !By J. KerteszI have found this book first in 1978 when I needed help what to do professionally with my life and it helped me understand what I like and not like and how I would be happy in work. When I found it later, I had "AHA!"I bought it this time, in 2003, for my daughter in law who does not know what work she'd like to take up now.I do recomend to everyone to help to understand better their real likes and how the real workspace works.

Book by Jackson, Tom
