Tom Jackson : The Illustrated Encyclopedia of Animals of the World: An expert reference guide to 840 amphibians, reptiles and mammals from every continent before purchasing it in order to gage whether or not it would be worth my time, and all praised The Illustrated Encyclopedia of Animals of the World: An expert reference guide to 840 amphibians, reptiles and mammals from every continent:

0 of 0 people found the following review helpful. The student has a tremendous interest in animals and she just loved this book and its illustrationsBy Bomber531 bought this book for a 3rd grade student I was assisting with improving her reading skills at our local elementary school. The student has a tremendous interest in animals and she just loved

this book and its illustrations! 0 of 0 people found the following review helpful. Five Stars By Genx10 Excellent 2 of 2 people found the following review helpful. Very Educationally Valuable as well as captivating to my children By Ani-me! I am very pleased with this item! This arrived in perfect condition and very quickly! My children love learning about animals and they are actively seeking to view this book daily to learn about a new creature. This book contains countless animals with pictures that capture interest. The animal bio's are appropriately to the point with the most interesting, important information about the specific creatures which helps children read about each animal without becoming bored or overdosed with wordy, lengthy facts. Thank you, this is a great find and deal.

An expert reference guide to 840 amphibians, reptiles and mammals from every continent. It is a comprehensive encyclopedia of over 840 animals from North and South America, Africa, Europe, Asia and Australia, all beautifully illustrated with over 1000 commissioned artworks and photographs, and over 800 distribution maps. From the smallest mouse to the largest whale, this book offers a detailed and thorough guide to an array of reptiles, amphibians and mammals, exploring their habits and habitats.

About the Author Tom Jackson is an experienced author of natural history and science books. Since graduating with a degree in zoology from Bristol University, England, he has worked at Jersey Zoo and has been involved in the conservation of endangered wildlife in Zimbabwe. As a travel journalist, he has explored the wondrous Galapagos Islands and the rainforests.
