David Alderton : The Illustrated Encyclopedia of Birds of Britain, Europe Africa: A fine visual guide to over 400 birds inhabiting these continents before purchasing it in order to gage whether or not it would be worth my time, and all praised The Illustrated Encyclopedia of Birds of Britain, Europe Africa: A fine visual guide to over 400 birds inhabiting these continents:

1 of 1 people found the following review helpful. Terrible field guideBy JojoGeeTerrible field guide. Not in taxonomic order. Really not rhyme or reason for where to find a species. I left the book in the hotel room in Istanbul. No helpful pictures. Wound up using Wikipedia for images of bird species. It was more about birds habitats, behavior etc than showing what a bird looks like. Pictures of some species not included or only one image of bird. Yellow-

legged gull vs Caspian gull. No pictures of either. Don't waste your time or money on this book

A comprehensive natural history directory of birds, containing over 535 individual colour illustrations and photographs, plus maps detailing distribution

About the Author David Alderton has had a lifelong interest in birds, and has travelled widely, observing them on every continent in a wide range of different habitats. He has also been involved with birds in the conservation sphere. David is the author of *The Exotic Pet Handbook*, *Looking After My Pet Goldfish* and *Birds of America* (all Southwater). He is also a consultant to the Pet Industry Joint Advisory Council, based in Washington.
