Each page is full of science! Most used book by my family! 1 of 1 people found the following review helpful. Great Illustrations and Information By Allison Hathaway This book is CRAMMED with information! I especially like that at the bottom of the page it has a picture that has an outline of a human standing next to an outline of the dinosaur being described to show size. It really helps hammer home the sizes of the dinosaurs. 0 of 0 people found the following review helpful. good By jonathan Great illustrations and many interesting facts.

More than seven hundred illustrations, drawings, photographs, and diagrams, mostly in full-color, accompany an informative text that discusses the lives of sixty-eight of the best-known dinosaurs.
