However, I wish that the author understood that not everyone is a professional (same career for decades), or a

new college graduate. Would love an updated version of this book for people who have changed paths several times or for people who have left the workforce to get either a bachelor's or master's later in life. Not everyone can work full-time and go to school and not everyone has an employer that will pay for your higher education. How about men or women who leave the workforce to take care of a child or aging parent and then later need to find their way back into the workforce?

HR Director and "The Perfect Resume" author Dan Quillen shows readers how to prepare for and conduct the perfect interview for job seekers in any field! This is the follow-on book to the author's "The Perfect Resume" book (Spring 2014). Once again, Quillen calls on his expertise as an HR professional (and as one who lost and found a job in the toughest economic environment since the Great Depression) to help his readers understand the New Economy, and how to find work when many cannot. He addresses the things readers need to do to secure an interview, and they will learn the key elements that will put them at the head of the pack of candidates. Chapters include what kinds of questions to expect, including atypical and 'surprise' questions; how to prepare beforehand; how to dress for the big day; things that can ruin an interview; why readers may be getting interviews but not jobs; considerations for recent college grads; how to stay positive; and much more!
