A Marvelous Addition to One's Home or Office!By madioochBest book ever, if only just to pick up and look at the pictures, not to mention the numerous great ideas about decorating, de-cluttering, and making living more comfortable. Through the years since I purchased this book, I never tire of looking through it for ideas, especially when I move, which I've done often. It makes a wonderful gift, also, with its compact size, its heavy weight, its thick, glossy pages, and its colorful photographs.0 of 0 people found the following review helpful. Great Book on Feng ShuiBy Kate42Beautiful book and wonderful and full information on the subject! However, the bad part is that the wording or lettering is so small it is very difficult to read. I will have to get a pair of magnifying glasses in order to read it in a relaxing way. Other than that, it's a very informative book.
