jump around to what lessons catch your eye or pique your interest. I actually bought two of these books and went through the exercises with a friend. It was a fun little way to think outside of my box and created growth and a bit of a bonding experience with a friend. I'd recommend this book to new writers all the way to seasoned professionals. Great buy!

The condition was just fine upon delivery. Perhaps you'll get more out of it than I did.
