The same government policies that are preventing our economic recovery are also devaluing every dollar you earn. Technology is ushering in a new era of unemployment, potentially causing thousands of production and administrative jobs to be lost. Additionally, your taxes are being raised to support national social welfare programs at a time when your cost of living is rising steadily. Dont get frustrated, dont get discouraged and most certainly dont give up. Theres an answer to your financial problems to which you have immediate access, and it lies within your Entrepreneurial DNA. It knows you want to succeed, enjoy a prosperous life and secure an independent future for those you care about most. In this highly inspirational book, Kaplan uses a unique approach that combines optimal mindset with experiential leadership to provide you with the greatest opportunity for success. His 30 years of successful military and business experience lays a solid foundation to provide exacting strategies for both personal and professional development. He offers an in-depth approach to taking control of your life and successfully reach the goals you set for yourself despite any obstacles you believe stand in your way. The Prior-Service Entrepreneur is MUCH more than a book for starting a business; it provides valuable insights into life skills, job readiness and mastering your competitive advantage. It will show you how to overcome personal challenges, increase confidence and reinvigorate your passion and sense of purpose. When you follow Michael Kaplans easy to read advice you will be prepared to achieve success, enjoy financial independence and change your life forever. Your new future starts today! Claim it its yours.
