Markus Freytag : The Progressive Rock Encyclopedia before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Progressive Rock Encyclopedia:

0 of 4 people found the following review helpful. Five Stars By Jules A. Junet great book 13 of 14 people found the following review helpful. This book is Wikipedia printed out and that's it. By Customer This book is a printed and bound self-published black white print out of Wikipedia articles about prog rock artists. Seriously, it's literally just the exact Wikipedia articles printed out including the bottoms of the Wikipedia articles where it's just a super long list of referenced website URLs. 0 of 6 people found the following review helpful. ... present for my boyfriend and he is going to LOVE it! By Kim I bought this for a Christmas present for my boyfriend and he is going to LOVE it!

Progressive rock threw a wrench into popular music - learn all about this beloved and revered genre of rock and roll in

this collection of articles by author/music historian Markus Freytag.
